

Fortnite: Chapter 2 has finally landed! With a whole host of new in-game features including a brand-new map, more water-based activities, upgraded character skins and a more streamlined arsenal of weapons, this Fortnite is promising to be the best yet. Almost all of the changes are cosmetic which means the concept of the game remains the same, with players still aiming to be the last man standing. Players will no doubt find the game much more enjoyable with so much more to explore. For parents and carers however, it pays to remain vigilant.

# What parents need to know about FORTNITE CHAPTER 2

## BATTLE ROYALE

Battle Royale games have become very popular over the last couple of years, and most tend to follow a very similar set-up. Taking Fortnite as an example, 100 players drop into a map, loot buildings for weapons and armour and attempt to beat all the other players to be crowned 'victor' at the end. If you've ever seen the Hunger Games movies, you'll have an idea of what this entails. Each game can take up to 20 minutes (assuming you last to the end) and can be restarted relatively quickly once 100 live players have been found.

## IS FORTNITE ADDICTIVE?

Fortnite is at the forefront of gaming addiction discussions because it is so popular with young people. But whether it actually contributes to gaming addiction is up for debate. WHO (World Health Organization) have classified gaming as a 'negative addiction', but this is not solely a concern with Fortnite. Signs of addiction can include irritability when not playing, lying about the amount of time played and a preoccupation with thoughts of the next gaming session. Realistically, it must be down to parents and carers to recognise these symptoms and act accordingly if they think they are developing.

## FREE TO PLAY... OR IS IT?

While Fortnite is technically free to play (in that you can download and play it without paying), it does come with the cost that spending money on things like skins and emotes in-game is heavily pushed to players. The currency used in-game is called 'V-Bucks' and can be bought with real money through the game's online store. It's worth remembering that these purchases are absolutely not necessary, are monetarily only and that V-Bucks can be earned in-game with enough play time.

## SEASONAL UPDATES

Every 10 weeks or so Fortnite is updated with a new season. This essentially adds new things like skins and emoticons to the game, while also sometimes changing up the game map in interesting ways. These seasons are free to everybody and don't require additional money to play, though battle passes for each season can be bought with V-Bucks. A battle pass will typically allow a player to earn experience faster and gain bonus game items by completing a host of daily challenges.

## CROSSPLAY IS AVAILABLE

One of the wonderful things about Fortnite is that it can be played cross-platform. This means that no matter what platform a person plays on (PC, PlayStation 4, Xbox One etc) they can play with friends who own the game on a different platform. To do this, an Epic Games account must be created online (which is free) and then linked with your platform account. Doing this removes the age-old boundary of not being able to play together because you don't have the same console and opens up a whole new world of playing online with friends.

## IS FORTNITE VIOLENT?

Fortnite has been rated by the ESRB (Entertainment Software Ratings Board) as 'Teen', as it contains cartoonish violence and the weapons and acts depicted in the game are some way removed from their real-life experiences. Characters don't draw blood when shot and instead of dying, they are simply blown up off the map. Naturally, players younger than the recommended age limit will want to play the game and that should be at the discretion of parents and carers.

#WakeUpWednesday

## BUYING V-BUCKS

As mentioned, Fortnite does contain in-game purchases and microtransactions in the form of V-Bucks which can be bought with real money. If you do decide to let your child use one of these in the game, be sure to take your card somewhere else or it will be very easy to purchase extra items at the price of a few buttons. It's important to set a limit on any purchases as mentioned, they are absolutely not necessary to play the game and a suggestion would be capping the spending at around £50 - this is the normal retail price of a game.

## GAMING WITH STRANGERS

Fortnite Battle Royale is an online game, and as such, there is a chance that young children could come into contact with strangers who are randomly placed into their group in a game. It's difficult to predict what another person might say to a person, so it's a good idea for parents playing together, to be present together. The only real downside to this is that when a stranger offered by Fortnite is in your group, it may introduce them, which can be done in the game's settings. Using words that say, like 'Hiya' or 'Cheers' while playing, is a great way to make sure you know who you're talking to and that nobody else is listening in.

## LIMIT TIME, BUT BE FLEXIBLE

A game of Fortnite can last up to 20 minutes, so be flexible when it's time to put it away. The approach of 'one more game' as opposed to '5 more minutes' will clear any complaints that a match is still ongoing. Better still, play with your child and take it in turns, this way you're helping reward the game and can keep an eye on what they're experiencing.

## TALK TO OTHER PARENTS / CARERS

If you're concerned about play time or spending money in the game, talk to other parents and carers of your child's friends. If you approach as a collective, it will be easier to know who their friends are online and you don't have to worry about who they're playing with. It can also help curb expectations on spending money on battle passes and skins if you stick together.

## CAN DEVELOP SOME IMPORTANT SKILLS

It's often overlooked just how good gaming can be for young people. Fortnite encourages team play, quick and commanding reflexes and fast decision-making. That's not to mention the lightning fast reflexes gamers can develop. While taking breaks to do other activities is of course important, there are benefits to screen time which might not be immediately obvious.

## PLAY THE GAME YOURSELF

There's no substitute for sitting down and playing the game yourself to learn all about it. Fortnite is available for free almost anywhere you can imagine, even your imagination, so there's never been a better time to get involved and see what all the fuss is about. You never know, you might even be able to impress your children when you show them your impressive Victory Royale tally!

## Meet our expert

Mark Foster has worked in the gaming industry for 5 years as a writer, editor and presenter. He is the current gaming editor of two of the biggest gaming news sites in the world, UNILAD Gaming and GAMINGBible. Starting gaming from a young age with his siblings, he has a passion for understanding how games and tech work, but more importantly, how to make them safe and fun.
